ANNUAL INDEX

VOLUME 55
1978

AUTHORS

A

Abdel Gelil, M.A. Trends in soaps and detergents in the Arab world, 24
Abdel-Rahman, A.-H.Y., and S.A.M. Youssef. Fortification of some Egyptian foods with soybean, 338A
Aceto, N.C. See M.F. Kozempel
Ackman, R.G. See C.M. Elson
—— See R.F. Addison
Adair, W.D. See E.J. Lowe
Addison, R.F., M.E. Zinck, R.G. Ackman, and J.C. Sipos. Behavior of DDT, polychlorinated biphenyls (PCBs), and dieldrin at various stages of refining of marine oils for edible use, 391
Ahmad, M.S., Jr. See M.U. Ahmad
Ahmad, M.U., M.S. Ahmad, and S.M. Osman. Allylic halogenation and oxidation of long chain α,β-Unsaturated ester, 491
—— M.S. Ahmad, Jr., and S.M. Osman. Bromination-dehydrobromination of long chain α,β-unsaturated acid, 669
Alabaster, J.S. Aquatic toxicology: A new element in the safety testing of surfactants, 181
Alexander, J.C. Biological effects due to changes in fats during heating, 711
Ali, S.A.M. A simple precaution to prevent breakage of centrifuge tubes during opertion, 592
Allen, C. See V.H. Holsinger
Allen, R.R. Principles and catalysts for hydrogenation of fats and oils, 792
Anderegg, R. See A. Hase
Applewhite, T.H. Greetings from AOCS at world conference on soaps and detergents, 2
Arai, H. See K. Tsujii
Asakawa, T. and S. Matsushita. Colorimetric determination of peroxide value with potassium iodide-silica gel reagent, 619
Awl, R.A., E.N. Frankel, J.P. Friedrich, and E.H. Pryde. cis-bond-producing hydrogenation of polyunsaturates catalyzed by polymer-complexed $Cr(CO)_3$ catalysts, 577

B

Babayan, V.K. Hard butters and confectionery coatings, 845
Bagley, E.B. See J.E. McGhee
—— See L.T. Black
Bailey, A.V., G.J. Boudreaux, and G. Sumrell. Preparation of some mono- and diesters of N,N-Disubstituted amides and their evaluation as plasticizers, 459
—— G.J. Boudreaux, G. Sumrell, and A.F. Novak. Antimicrobial properties of some fatty ester-amides, 835
Baker, G.W. See S.P. Clark
Bansal, V.K. and D.O. Shah. The effect of divalent cations (Ca++ and Mg++) on the optimal salinity and salt tolerance of petroleum sulfonate and ethoxylated sulfonate mixtures in relation to improved oil recovery, 367
Barbano, P. and J.W. Sherbon. Phase behavior of tristearin/trioctanoin mixtures, 478
Barton, F.E., II, D.S. Himmelsbach, and D.B. Walters. ^{13}C Nuclear magnetic resonance of homologous methyl esters of saturated acids and the effect of chemical shift reagents, 574
Bastic, Lj. See M. Bastic
Bastic, M., Lj. Bastic, J.A. Jovanovic, and G. Spiteller. Hydrocarbons and other weakly polar unsaponifiables in some vegetable oils, 886
Basu, S.P. See A. Sengupta
Becker, W. Solvent extraction of soybeans, 754
Bemis, W.P. See J.C. Scheerens
Berry, J.W. See J.C. Scheerens
Berry, S.K. The composition of the oil of starfruit (*Averrhoa carambola*, Linn.) seeds, 340
Berth, P. Recent developments in the field of inorganic builders, 52
Bhattacharjee, M. See R.K. Mukherjee
Billek, G., G. Guhr, and J. Waibel. Quality assessment of used frying fats: A comparison of four methods, 728
Black, L.T. and E.B. Bagley. Determination of oligosaccharides in soybeans by high pressure liquid chromatography using an internal standard, 228
—— See G.R. List
Blake, J.A. See I. Erkilla
Bluestein, B.R. See B.L. Kapur
Boudreaux, G.J. See A.V. Bailey
Bouveng, H.O. Management of man-made eutrophication: The Swedish concept, 178
Bowers, R.H. Rapid calculation of solid fat index values from dilatometer readings, 350
Bracco, U. See A. Dieffenbacher
Bredeson, D.K. Mechanical extraction, 762
Brenner, T.E. Soaps and detergents: North American trends, 5
Brooks, B.F. Energy conservation in oil refining, 772
Brown, M. See R.O. Feuge
Buchanan, R.A., F.H. Otey, C.R. Russell, and I.M. Cull. Whole-plant oils, potential new industrial raw materials, 657
Butterfield, R.O. See A.E. Johnston
Butterworth, E.R. Separation methods in processing edible oils, 781

C

Carr, R.A. Refining and degumming systems for edible fats and oils, 765
Chambless, W.H. See S.E. McGuire
Chapman, G.W., Jr., See J.A. Robertson
Chatterjee, P.C. See S.K. Joshi
Chang, S.S., R.J. Peterson, and C.-T. Ho. Chemical reactions involved in the deep-fat frying of foods, 718
—— See C.-T. Ho
—— See J.A. Thompson
—— See M.M. Paulose
Chaudry, M.M., A.I. Nelson, and E.G. Perkins. Distribution of chlorinated pesticides in soybeans, soybean oil, and its by-products during processing, 851
Chidley, J.E. See J.B. Rossell
Christensen, P.N., P. Holm, and B. Sønder. Proteolytic enzymes in nonbuilt, liquid detergents, 109
Chung, O.K., Y. Pomeranz, K.F. Finney, and M.D. Shogren. Surfactants as replacements for natural lipids in bread baked from defatted wheat flour, 635
—— See Y. Pomeranz
Clark, S.P., G.W. Baker, S.W. Matlock, and D. Mulsow. Cottonseed flour production: Economic evaluation, 690
Cole, E. Understanding the consumer through market research, 175
Collier, E.J. See Y. Yamaji
Coons, D.M. Bleach: Facts, fantasy, and fundamentals, 104
Cooperman, M.C. and F.C. Naughton. New resinous ricinoleic polyol for urethane reactions, 324
Costa, P.V. Market evolution of the soap and detergent industry within the past five years in western Europe, 9
Craig, J.C., Jr. See M.F. Kozempel
Crutchfield, M.M. Organic builders: A review of worldwide efforts to find organic replacements for detergent phosphates, 58
Csicsayova, M. See V. Koman
Cucullu, A.F. See E.L. Skau
—— See L.S. Lee
Cull, I.M. See R.A. Buchanan

D

Dairiki, T. See L.M. Smith
Daneshrad, A. The structure of the glycerides of pistachio kernel oil, 317
Davidsohn, A. Spray drying and dry neutralization of powdered detergents, 134
Decossas, K.M., R.O. Feuge, J.L. White, Sr., and L.W. Mazzeno, Jr. Crude glycerol glucoside esters of cottonseed oil: preliminary cost analysis, 567
de Jong, A.L. Guidelines for the comparative testing of detergent products, 163
DeNavarre, M.G. Oils and fats, the historical cosmetics, 435
Dieffenbacher, A. and U. Bracco. Analytical techniques in food emulsifiers, 642
Donk, T.E. The palm oil situation, 599A
—— Commodity oil markets and how they work, 601A
Doe, P.H., M. El-Emary, W.H. Wade, and R.S. Schechter. Surfactants for producing low interfacial tensions: II. Linear alkylbenzenesulfonates with additional alkyl substituents, 505
—— M. El-Emary, W.H. Wade, and R.S. Schechter. Surfactants for producing low interfacial tensions: III. Di and Tri n-Alkylbenzenesulfonates, 513
Donbrow, M. See P. Sax
Dreher, M.L. See J.C. Scheerens
Dua, R.D. See R. Mitra
Dufek, E.J. Conversion of methyl 9(10)-formylstearate to carboxymethylstearate, 337
Dunkley, W.L. See L.M. Smith
Dupuy, H.P. See E.T. Rayner
—— See K. Warner
Dutton, H.J. Analysis of fats and oils, 806
—— See A.E. Johnston
—— See J.M. Snyder
—— See T.L. Mounts

E

Egan, R.R. Cationic surface active agents as fabric softeners, 118
El-Din Gebril, B. See S.M. Gawish
El-Emary, M. and L.O. Morgan. Structural features of linear alkylbenzene sulfonates as observed in ^{13}C magnetic resonance spectra, 793
—— See P.H. Doe
Ellington, J.J., P.F. Schlotzhauer, and A.I. Schepartz. Quantitation of fatty acids from flue-cured tobacco by combined preparative thin layer chromatography-gas chromatography, 572
Elson, C.M. and R.G. Ackman. Trace metal content of a herring oil at various stages of pilot-plant refining and partial hydrogenation, 616
Emken, E.A. Commercial and potential utilization of lipoxygenase, 416
—— J.C. Hartman, and C.R. Turner. Separation of saturated, unsaturated, and acetylenic fatty acid isomers by silver resin chromatography, 561
—— See H. Rakoff
Erä, V. and K. Noronen. Reaction of tall oil pitch with desmodur N isocyanate, 610
—— See E. Holmbom
Eriksson, A. See O. Podlaha
Erickson, D.R. Finished oil handling and storage, 815
Erkilla, I., T. Fung, M. Kandiah, J. Wilkins, J.J. Moran, and J.A. Blake. Study of the accelerated oxidation of low and high erucic rapeseed oil, 303
Evans, C.D. See G.R. List
—— See K. Warner

F

Farag, R.S., S.A. Osman, S.A.S. Hallabo, and A.A. Nasr. Cottonseed oil oxidation catalyzed by amino acids and albumin in aqueous and nonaqueous media, 613

—— S.A. Osman, S.A.S. Hallabo, and A.A. Nasr. Linoleic acid oxidation catalyzed by various amino acids and cupric ions in aqueous media, 703
—— S.A. Osman, S.A.S. Hallabo, A.N. Girgis, and A.A. Nasr. Linoleic acid oxidation catalyzed by various amino acids and cupric ions in freeze-dried model systems, 708
Fefer, M. Neo acids: Synthetic highly branched organic acids, 342A
Fernley, G.W. Zwitterionic surfactants: Structure and performance, 98
Feuge, R.O., J.L. White, and M. Brown. Preparation of fatty acid esters of polyol glucosides, 699
—— See K.M. Decossas
Finney, K.F. See O.K. Chung
Fiorilli, J.A. See J. Trumbetas
Fisher, G.S. See S.P. Fore
Flowers, R.A. See D.M. Wilson
Ford, J.R., G.C. Mustakas, and R.D. Schmutz. Phytic acid removal from soybeans by a lipid protein concentrate process, 371
Fore, S.P., M.G. Legendre, and G.S. Fisher. Analysis of neutral volatiles of mayonnaise by direct gas chromatography and mass spectrometry, 482
Franke, A. See L.M. Smith
Frankel, E.N. See R.A. Awl
Friedrich, J.P. See R.A. Awl
—— See T.L. Mounts
Fukuzumi, K. See T. Tagawa
Fung, T. See I. Erkilla

G

Gandy, D.E. Sunflower situation in Russia and the United States, 597A
Gast, L.E. See A.W. Schwab
Gavin, A.M. Edible oil deodorization, 783
Gawish, S.M., A.A.B. Hazzaa, and B. El-Din Gebril. Cationic surface-active agents, 745

Allen, Robert R., named a principal scientist at Anderson Clayton Foods, 387A
American Association for the Advancement of Science, announces president elect Kenneth E. Boulding, 104A
—— develops directory of scientists with handicaps, 105A
American Institute of Chemists, Dr. Melvin Calvin named to receive 1979 Gold Medal of the American Institute of Chemists, 858A
American Soybean Association, announces new headquarters, 806A
—— offices in Belgium, has new newsletter, 96A
—— soliciting research proposals, 539A
—— sponsors research projects, 477A
American Society for Testing and Materials, elects new officers, 680A
American Trucking Association's Operations Council, presenting series of seminars, 824A
Anton, John J., elected chairman of Food Protein Council, 105A
AOCS, becomes a co-sponsor for the International Congress on Oilseeds and Oils, 693A
—— How does it stack up?, address by Jim Lyon, 528A
—— membership application, 37A
AOCS Executive Committee, report of February meeting, 312A
—— semi-annual meeting report, 691A
AOCS Governing Board, summary of 1977 fall meetings, 99A
—— summary of 1978 spring meeting, 523A
AOCS Headquarters, staff, pictorial review, 311A
AOCS Pioneers, two members announced, 108A
AOCS Short Course on Applications of High Performance Liquid Chromatography, speakers listing, pictorial review, 106A
AOCS Short Course on Industrial Fatty Acids, five more faculty members selected, 829A
—— registration and program information, 882A
—— registration card, 883A
—— 10 named to faculty, 752A
—— tentative plans announced, 682A
AOCS Short Course on Processing & Quality Control of Fats & Oils, general information, 100A
—— pictorial review of meeting, 592A
—— program announced, 192A
—— registration information, 316A
—— speakers, abstracts, pictorial review, 400A
—— speakers, pictorial review, 319A
—— topics and speakers announced, 100A
AOCS Speakers' Listing, revision announced, 834A
—— updated version planned, 105A
Applewhite, Thomas H., address by retiring AOCS president, 526A
—— State of the Society address, 525A
Applications of High Performance of Liquid Chromatography Short Course, see AOCS Short Course on Applications of High Performance Liquid Chromatography
Association of Official Analytical Chemists, 92nd annual meeting announcement, 513A
—— nominations for Harvey W. Wiley Award announced, 199A
—— nominations for Scholarship award announced, 199A
—— 1979 spring training conference to be held the week following AOCS annual meeting, 750A
—— regional conference announcement, 96A
Award in Lipid Chemistry, nominations requested, 676A, 781A, 812A
—— Ralph T. Holman recipient of 14th award, 186A
—— Ralph Holman recipient of award, picture, 524A
Award of Merit, Nicholas Pelick recipient, picture, 524A

B

Bailey Award, call for nominations, 451A, 500A, 578A, 676A, 758A, 820A
—— Orville S. Privett recipient of 1978 award, 97A
—— presentation, pictorial review, 184A
Barker, Graham, received SCC's Merit Award, 206A
Baldwin, A.R., announces new Soaps, Detergents & Cosmetics Section, 120A
—— named by Secretary of Agriculture to a Joint Council on Food and Agricultural Science, 456A
Bennett, J.W., book review, *Mycotoxic Fungi, Mycotoxins, Mycotoxicoses. An Encyclopedic Handbook, Volume 1,* edited by T.D. Wyllie and L.G. Morehouse, 864A

Lamm, R. McFall, Jr., feature article in Fats and Oils Situation, 296A
League For International Food Education, names Dr. Carol I. Waslien executive director, 887A
Luippold, D.A., honored student award winner, 284A
Lyon, Jim, address "AOCS—How Does it Stack Up", 528A

M

Masiero Industrial S.A., announces two contracts, 515A
—— building two systems, 104A
McCormick, John A., president-elect of Federation of Societies for Coatings Technology, 82A
Meetings of AOCS, 1978, St. Louis, abstracts of papers, 233A
—— banquet, pictorial review, 531A
—— book exhibit information, 320A
—— entertainment, pictorial review, 226A
—— exhibitors, pictorial review, 533A
—— general information, 227A, 313A
—— general report, 519A
—— High Density Lipoprotein Symposium, pictorial review, 522A
—— list of exhibitors, 320A
—— past presidents dinner, pictorial review, 520A
—— placement center instructions, 228A, 322A
—— president's club reception, pictorial review, 530A
—— registration information, 143A
—— soap, detergent & cosmetic topics in technical sessions, 204A
—— technical program, 146A
—— tentative committee schedule, 316A
Meetings of AOCS, 1979, San Francisco, call for papers, 451A, 500A, 574A, 670A, 750A
—— George Cavanagh named general chairman, 582A
—— innovation and tradition, 886A
—— spouses' program announced, 808A
—— symposia chairpersons named, 750A
—— symposia topics announced, 670A
Meshnick, Daniel J., received 1978 Achievement Award of the Northeast Section of the AOCS, 892A
Milliken Chemical, hydrogenation unit operating, 283A
Min, D.B., chairman for symposium "Objectionable Flavor in Foods—Chemistry and Methodology", during Institute of Food Technologists 38th annual meeting, 367A
Monsanto, finances study of effects of phosphate bans, 121A
—— published technical bulletin, 638A
Mounts, T.L., visits Iberia and Morocco, sponsored by American Soybean Association, 512A
Murphy, M.G., honored student award winner, 284A

N

National Renderers Association, annual meeting review, 110A
—— convention announced, 696A
—— sponsors executive visits, 517A
National Science Foundation, surveys programs in science for women and girls, 680A
National Soybean Processors Association, approved six proposals to improve and increase U.S. soybean meal exports, 773A
—— committee to push exports, 283A
—— election of officers, picture, 84A
—— elects officers, modifies trading rules, 887A
—— trading rules book available, 96A
Neumunz Inc., announces plant in Iran, 104A
New Members, accepted at AOCS 69th annual meeting, 540A
New Products, 80A, 178A, 286A, 380A, 466A, 514A, 584A, 694A, 770A, 826A, 874A
New Publications, 84A, 182A, 283A, 385A, 459A, 512A, 580A, 686A, 822A
Newman, Howard A.I., book review, *Atherosclerosis Reviews, Vol. 1*, edited by Rodolofo Paoletti and A.M. Gotto Jr., 372A
—— *Atherosclerosis Reviews, Vol. 2*, edited by Rodolofo Paoletti and A.M. Gotto, Jr., 372A
Norris, Frank A., retires from Kraft Inc., 696A

O

Oates, John J., to head Federation of Society for Coatings Technology, 82A
Obituaries, Bartholomew, H. Dean, 589A
—— Bowling, J.G., 692A
—— Boynton, Bert, 186A
—— Detwiler, S.G., 545A
—— Gandy, Dalton E., 692A
—— Good, Robert D., 166A
—— Hodges, Lawrence H., 766A
—— Hoerr, Charles W. (Chuck), 278A
—— Hopper, Turner H., 476A
—— Kalustian, Clare, 692A
—— King, A.J., 820A
—— Nesom, Eugene, 692A
—— Potter, George, 589A
—— Prevost, E.S., 766A
—— Rowland, G.H., 589A
—— Schuette, Henry A., 312A
—— Simcox, W.J., 766A
—— Stephens, Marlyn W., 78A
—— Stetzler, R.S., 766A
—— Stovall, T.A., 820A
—— Zajcew, Mykola, 766A
Officers of AOCS, 1978–79 candidates announced, pictorial review, 101A
—— 1978–79 installation of officers, pictorial report, 389A
—— 1979–80, nomination suggestion blank, 815A
Official Referee Chemists, three added to list, 887A
Oil Technologist Association of India, sponsoring a world conference, 74A
Olcott, Harold, will speak at NORCAL Section meeting, 835A

P

Pelick, Nicholas, profile, 832A
—— recipient of 1978 AOCS Award of Merit, 524A
People & Places, 82A, 174A, 298A, 378A, 460A, 518A, 582A, 768A, 824A, 860A
Perkins, E.G., book review, *Developments in Hydrocarbon Biodegradation-1*, edited by R.J. Watkinson, 580A
—— book review, *Environmental Chemistry*, edited by J.O.M. Bockris, 684A
—— book review, *Food Chemistry, Part 1*, edited by Owen R. Fennema, 580A
—— book review, *Handbook of Environmental Data on Organic Chemicals*, by Karel Verschueren, 510A
—— book review, *Ion Chromatographic Analysis of Environmental Pollutants*, edited by Eugene Sawiki, J.D. Mulik, and E. Wittgenstein, 510A
Pfeffer, P.E., book review, *Molecular Spectroscopy*, edited by A.R. West, 182A
Pharr, D.Y., honored student award winner, 284A
Pittsburgh Conference on Analytical Chemistry and Applied Spectroscopy, theme announced, 835A
Placement Center, instructions, 228A, 322A
Plains Cooperative Oil Mill, announces plans to construct cottonseed extraction plant, 830A
Poth, Harry, treasurer of Federation of Societies for Coatings Technology, 82A
President's Club & Honor Roll, 76A, 168A, 276A, 368A, 454A, 568A, 678A, 756A, 818A, 858A
Privett, Orville, profile, 292A
Processing & Quality Control of Fats & Oils Short Course, see AOCS Short Course on Processing & Quality Control of Fats & Oils
Procter & Gamble, announces new vice-presidents, 205A
Profile, Dutton, H.J., 586A
—— Eijadi, M., 690A
—— Firestone, David, 388A
—— Holman, Ralph T., 782A
—— Pelick, Nicholas, 832A
—— Privett, Orville, 292A
Purdy, Richard, named president of Sao Pablo Manufacturing Corp. of PVO, 670A

Q

Quality Control Seminar, announced, 830A

R

Referee Chemist, application for certification or recertification, 187A
Referee Chemists, 1978–79 certificates issued, 593A
Rothbart, Herbert L., named lab chief at USDA Eastern Regional Research Center, 105A
Rupar, C.A., honored student award winner, 284A

S

Sallee, E.M., book review, *Aquametry, Part 1*, by John Mitchell, Jr. and Donald Milton Smith, 83A
Schneider, Wilma J., will deliver paper during annual meeting program of Federation of Societies of Coatings Technology, 678A
Schwitzer, M.S., retires as director for Akzo Chemie U.S. Ltd., 696A
SD&C Industry News, 121A, 205A, 348A, 420A, 480A, 522A, 638A, 726A, 790A, 841A, 894A
Sections of AOCS, Northeast Section, concluding meetings programs announced, 98A
—— gives 1978 Achievement Award to Daniel J. Meshnick, 892A
—— March meeting report, 387A
—— meeting announced, 688A
—— officers announced, 588A
—— pictorial review of annual Ladies' Night, 688A
—— pictures of Oct. 4 meeting, 98A
—— September meeting announcement, 588A
—— 17th annual symposium, pictorial report, 290A
Sections of AOCS, North Central Section, "Current Concepts of Food Ingredients Update '78" symposium, pictoral report, 386A
—— "Current Concepts of Food Ingredients—Update '78" symposium, speakers announced, 98A
—— meetings announced, 688A
—— November meeting announced, 806A
—— review of second meeting, 98A
—— September meeting review, 824A
—— symposium speakers named, 184A
Sections of AOCS, Northern California Section, December meeting announced, 835A
—— election of officers, 177A
—— sponsors symposium at Western Food Industry Conference, 99A
Sheppard, Alan J., will receive 1978 Fellows of the Association of Official Analytical Chemists Award, 680A
Shotwell, Odette L., will receive 1978 Fellows of the Association of Official Analytical Chemists award, 680A
Silbert, Leonard S., speaker at Northeast Section November meeting, 688A
Simko, J.P., book review, *1977 Annual Book of ASTM Standards, Part 30*, by the American Society for Testing and Materials, 684A
Simon-Rosedowns, announces contracts, 99A
—— building new test facility, 517A
Smalley Check Sample Program, 1977–78 award announced, 537A
—— 1978–79 program announced, 185A, 288A, 385A, 478A
Soap and Detergent Association, annual meeting report, 206A
—— annual meeting topics announced, 841A
—— "Detergents—in Depth", symposium, meeting review, 481A
Soaps, Detergents, and Cosmetics section, will be continued, 522A
Society of Cosmetic Chemists, annual scientific meeting scheduled, 791A
—— annual technical meeting report, 206A
—— call for papers for 1978 scientific meeting, 421A
—— fourth midwest symposium announcement, 638A
—— Midwest Chapter, officers announced, 421A
—— Midwest Chapter, picture, 418A
Soybean Oil, the Ugly Duckling of the Soybean Industry, by H.J. Dutton, 195A
State of the Society, address by Thomas H. Applewhite, 525A
Stupel, Helmut, named consultant for Detergent Products by Shell Chemical, 481A
Summerfield, F.W., honored student award winner, 284A
Susi, Heino, book review, *Advances in Infrared and Raman Spectroscopy, Vol. 3*, edited by R.J.H. Clark and R.E. Hester, 374A
Swern, Daniel, book review, *Aliphatic Chemistry, Vol. 5*, 279A
—— book review, *Aromatic and Heteroaromatic Chemistry, Vol. 5*, senior reporters C.W. Bird and G.W.H. Cheeseman, 279A
Symposiums Commodity Oil Markets, 597A

T

Tallow, as No. 2, is trying harder, 786A
Taussky, Ilona, attends AOCS 69th annual meeting, 545A
10th International Congress of Cosmetic Chemists, meeting announcement, 420A
Third Annual Midwest Regional Symposium of the Society of Cosmetic Chemists, meeting review, 122A
Third International Conference on Jojoba, urges Jojoba trade association formed, 830A
Thurman, Benjamin H., receives honorary doctor of science degree from Davidson College, 477A

U

United Nations Industrial Development Organization (UNIDO), report on meeting on the vegetable fats and oils industry, 392A
United States soybean supply, probably will be a record 1.9-plus billion bushels, 892A
USDA, Agricultural Research Service, report on the commercial applications of research, 513A
—— begins competitive grant program, 84A
—— January report, soybean production, 294A
—— March report, oilseed exports, 465A
—— May forecast, 547A
—— merged with Agricultural Research Service, 180A
—— regional research centers, major fund cuts proposed, 196A
—— reports U.S. mainland free of soybean rust, 110A
—— Title 1 vegetable oil allocations set, 94A
USDA Economics, Statistics, and Cooperative Services, report fats and oils exports, 287A
USDA's Fats and Oils Outlook, foresees modest increases in soybean crush, 682A
U.S. Department of Commerce, final 1977 report on production, consumption, and stocks of fats and oils, 393A
U.S. International Trade Commission on "Imported Food Fats and Oils: Growing Competition for U.S. Agriculture", new report, 393A

V

Van Duyne, Frances O., book review, *The Book of Tofu, Food for Mankind, Volume 1,* by William Shurtleff and Akiko Aoyagi, 868A
Vennart, George P., named chairman of the Pathology Dept. at Medical College of Virginia School of Medicine, 187A
Viscione, C.E., book review, *Conservation of Resources, A Symposium held at the University of Glasgow,* April 1976, 458A

W

From Washington, 89A, 180A, 284A, 384A, 464A, 516A, 583A, 724A, 830A, 872A
Williams, L.D., elected vice president-research at Central Soya Company, 762A
Willis, William E., named PVO's new director of corporate research and development, 670A
Witting, Lloyd A., book review, *Developments in Chromatography I,* edited by C.E.H. Knapman, 760A
—— book review, *Dietary Fats and Oils in Human Consumption,* 510A
—— book review, *Free Radicals in Biology, Vol. III,* edited by W.A. Pryor, 760A
—— book review, *Handbook of Derivatives for Chromatography,* 181A
—— book review, *Handbook of Lipid Research, Vol. 1,* edited by Arnis Kuksis, 684A
—— book review, *Lipid Metabolism in Mammals Vol 1 & 2,* 83A
—— book review, *Methods in Membrane Biology, Vol. 8,* edited by E.D. Korn, 83A
—— book review, *Nutrition and Cancer, Vol. 6 of "Current Concepts in Nutrition",* by Ed M. Winick, 458A
—— book review, *Pathophysiology, Vol. 3, "The Bile Acids",* by P.O. Nair and D. Kritchevsky, 282A
—— book review, *Practice of Thin Layer Chromatography,* by J.C. Touchstone and M.F. Dobbins, 686A
Wolf, Thomas, book review, *Contemporary Liquid Chromatography,* by R.P.W. Scott, 374A
—— book review, *HPTLC: High Performance Thin-Layer Chromatography,* edited by A. Zlatkis and R.E. Kaiser, 279A
World Conference on Soaps and Detergents, conference officers, pictorial review, 4A
—— coordinators and session chairmen, pictorial review, 10A
—— cosponsoring & supporting organizations, list, 7A
—— exhibitors, pictorial review, 56A
—— list of conference delegates, 26A
—— steering and program committees, list, 6A
World Conference on Vegetable Food Proteins, air travel form, 720A
—— exhibit area and exhibitors, list, 722A
—— general information, 86A, 591A
—— goals and purpose outlined, 698A
—— Honorary & Advisory Committee announced, 406A
—— honorary committee pictorial review, 504A, 700A
—— last chance to register notice, 754A
—— list of participating organizations, 327A
—— meeting review, pictures, 876A
—— Patron of the conference announced, picture, 700A
—— program details, 402A
—— registration card, 703A
—— registration forms, 407A
—— registration information, 701A
—— round table discussions announced, 712A
—— spouses program details, 699A
—— session chairmen, pictorial review, 470A, 718A
—— technical program, 188A, 404A, 705A
—— travel forms, 411A
World Fats and Oils Status, in Brazil, Malaysia, India, Philippines, Mexico, Peru, and Italy, 546A
Wurster-Sanger, contract announced, 315A

Y

Yugoslavia's Fats and Oils Industry, report by James K. Freckmann, 393A

SUBJECT

A

Acetone insoluble, factor for estimation from phosphorus content in soybean oil, 521
Acetoxymethylstearic acid, synthesis, 337
Acetylated monoglycerides, identification by TLC, 642
Acetylenic acids, unsaturated, separation by silver resin chromatography, 561
Acids, by microbial oxidation of hydrocarbons, 430
—— by ozone oxidation of alcohols, 536
—— production during simulated deep-fat frying, 718
trans **Acids,** in butter and margarine, 252
Activated bleaching earth, properties and use, 777
N-Acyl-1, 2 diamino ethane, synthesis, 745
2-Acyl-1, 3 distearins, polymorphism, 310
Acylglycerols, anal by high pressure liquid chromatography, 649
—— synthesis using lipolytic enzymes, 422
Acylimides, properties of aqueous solns, 293
Aflatoxin, association with fluorescence in cottonseeds, 591
—— contamination of commercial peanuts, 111A
Agglomerated detergents, 141
Albumin as catalyst of oil oxidation, 610
Alcohol ethyoxylates, synthesis, 93
Alcohol sulfates in surfactants, 66
Alcohols, by microbial oxidation of hydrocarbons, 430
—— ozone oxidation to carboxylic acid, 536
—— production during simulated deep-fat frying, 718
Aldehydes, production during simulated deep-fat frying, 718
Aldehydic acids, production during simulated deep-fat frying, 718
Alkali refining, changes in pesticide levels, 391
—— of edible oils, 765
Alkene-1-sulfonates, dtmn in alpha olefin sulfonates by ozone titration, 905
Alkenes, carbonylation using palladium catalysts, 496
Alkyl imidazolines, synthesis, 741
Alkyl phosphates, surfactant properties, 839
Alkyl sulfates, effect of chain length on solution viscosity, 300
Alkylbenzenes, sulfonation technology, 128
Alkylbenzene sulfonates, in detergents, 66, 98
—— structure by ^{13}C magnetic resonance, 593
Alkylbenzene sulfonic acid, titrimetric anal in detergent intermediates, 359
Alkyldimethyl ammonium compounds as fabric softeners, 118
Alkyloxynaphthalene sulfonates, relation of structure to properties, 625
Alkylphenol ethoxylates, synthesis, 93
Allyl isothiocyanate, in volatiles of aged mayonnaise, 482
Alpha olefins, sulfonation technology, 128
Alpha sulfo fatty acids, processing, 549
Aluminosilicates, in soaps and detergents, 36
Aluminum silicates as detergent builders, 52
Ambrosia trifide L., as source of hydrocarbons and oils, 657
Amides, antimicrobial properties, 835
—— synthesis and evaluation as plasticizers, 459
Amides from alkyl amines, inhibition of bacteria, 854
Amido alkoxylated fatty ammonium fabric softeners, 118
Amine oxides, effect of pH on foam stability, 558
—— in cosmetics, 438
Amines, ethoxylated, in cosmetics, 438
—— fatty, inhibition of *Clostridium botulinum,* 854
Amino acids, as catalysts for fat oxidation, 703, 708
—— as catalysts for oil oxidation, 610
Aminodiamides, inhibition of bacteria, 854
Ammonia-treated corn, lipid anal, 526
Ammoniocarboxylates, detergent performance, 98
Amphoteric surfactants, 98
Amphoterics, in cosmetics, 438
Anacardic acid, in cashew nutshell liquid, 663
Anacarium occidentale, comp of cashew nutshell liquid, 663
Analysis in oilseed commodity trading, 806
Analytical procedures of American Oil Chemists' Society, 806
Anchovy oil, production in California, 238
Anionic surfactants, dtmn of sodium sulfate, 673
Antimicrobial activity of fatty acid derivatives, 395
Antimicrobial compounds, evaluation of esteramides, 835
Antioxidants, effect on flavor of hydrogenated and unhydrogenated soybean oil, 345
—— effect on vegetable oil flavor stability, 252
—— review of use in edible oils and fats, 809
Antistatic agents for fabrics, 118
AOM tests, effect of iron and citric acid, 280
AOS, alpha olefin sulfonates, manufacture and use in surfactants, 70, 81
Apparel, laundering characteristics, 198
Arab nations, soap and detergent use, 24
Arachidonic acid, function as essential fatty acid, 774A
Aromatic compounds, production during simulated deep-fat frying, 718
Arsenic, in crude, refined and hydrogenated herring oil, 616
Asclepius incarnata L., as source of hydrocarbons and oils, 657
Asclepius syriaca L., as source of hydrocarbons and oil, 657
Asia, consumption of soaps and detergents, 14
Australia, soap and detergent industry, 17
Autoxidation of edible oils and fats, 809
Autoxidation of linoleic acid, catalysis by amino acids and copper ions, 703, 708
Averrhoa carambola seed, oil comp, 340

B

Bacteria inhibition by fatty amines, 854
Bar soaps, finishing techniques, 147
—— packaging, 151
Batyl alcohol, in fish liver oils, 238
Bellflower, tall, as source of hydrocarbons and oils, 657
Berborates, in cleaning systems, 104
Betaines, in detergents, 98
BHA, volatility at high temp, 739
Biodegradation of amphoteric detergents, 98
Biodegradation of detergents, 181
9,9(10,10)-Bis (acetoxymethyl) octadecanoates as plasticizers for polyvinyl chloride, 469
Bixin, oxidation by lipoxygenase linoleic acid, 416
Bleaching, of degummed soybean oil, 856
Bleaching agents, in cleaning process, 104
Bleaching clays, properties and use, 777
Bleaching of oils, 777, 781
Boneset, tall, as source of hydrocarbons and oil, 657
Bread, bleaching by lipoxygenase, 416
—— Egyptian, fortification with soy flour, 338A
—— lipid interactions with protein and carbohydrates, 285
—— substitution of natural lipids by surfactants, 635
Bread quality, effect of lipids, 285
—— evidence for lipid interaction with protein and carbohydrates, 285
Bromination of α, β unsaturated acids, 669
4-Bromo-*trans*-2-hexadecenoate, synthesis, 491

Bromotrichloromethane, reaction with ethyl undecenoate, 395
Buffalo gourd, amino acid comp of protein, 523
—— fatty acid comp of oil, 523
—— oil content of seed, 523
Builders, in organic, developments in field, 52
—— organic for detergents, 58
Builders for detergents, properties and performance, 52
Builders in detergent formulations, 49, 52
tert. Bulylhydroquinone, effect on oil flavor, 252
Butea monosperma, comp of seed oil, 533
Butter, *trans* acid content, 257
—— fatty acid comp, 257
Butylated hydroxy anisole, volatility at high temp, 739

C

Cacalia atriplicifolia L, as source of hydrocarbons and oil, 657
Cadmium, dtmn in fats and oils, 695
—— in crude, refined and hydrogenated herring oil, 616
Calorimetry, differential scanning of saturated triglycerides, 601
Calorimetry of triglycerides, examination of polymorphism, 310
Campanula americana, as source of hydrocarbons and oil, 657
Candida curvata, fat production by lactose fermentation, 683
Candida lipolytica, fatty acids by oxidation of alkenes, 430
Caramine inpatiens, comp of oil, 873
Carbonyl compounds, as measure of fat oxidation, 539
Carboxylic acids, by microbial oxidation of hydrocarbons, 430
—— by ozone oxidation of hydroxy compounds, 536
Carboxymethylcellulose, as antiredeposition additives, 122
Carboxymethyloxysuccinate, as detergent builder, 58
Carboxymethyltartronate, as detergent builder, 58
Cardamine graeca, comp of oil, 873
Cardanol, in cashew nutshell liquid, 663
Cardol, in cashew nutshell liquid, 663
Carotene, oxidation by lipoxygenase linoleic acid, 416
Carp, fatty acid comp of oil from *Puntius sarana,* 881
Cashew nutshell liquid, comp, 663
Castor oil, acetylated, as plasticizer for polyurethane films, 653
—— in polyurethane resins, 653
—— resinous polyol from, 324
—— "synthetic" from hydroxy-conjugated octadecadienoic acid, 416
Castor oil diethanolamide, in urethane resins, 653
Castor oil monoglyceride, in urethane resins, 653
Cationic surface active agents, 745
Cationic surface active agents as fabric softeners, 118
Celite, efficiency of removal of phospholipids from degummed soybean oil, 856
Cellulose derivatives, as antiredeposition detergent additives, 122
Cellulose ethers, as antiredeposition detergent additives, 122
Celtis sinensis, fatty acid comp of oil, 471
Centrifuge tubes, procedure to minimize breakage, 592
Cephalaria syriaca, seed oil, 412
Cetomagracol, polyoxvethylene derivative of cetyl alcohol, 748
Cetyl alcohol, polyoxyethylene ether, 748
Cetyl phosphate, synthesis and surfactant properties, 839
Cheirantus genus, comp of oil, 873
Chlorinated pesticides, in soybeans and products of soybean processing, 851
Chlorophyll, oxidation by lipoxygenase linoleic acid, 416
Chocolate, use of confectionary fats, 845
Cholesterol, in commercial mayonnaise and imitation mayonnaise, 548A
—— in serum, effect of fish oils in diet, 238
—— of egg yolk, 501
—— oxidation by lipoxygenase linoleic acid, 416
Chromatography, silver resin, fatty acid sepn., 561, 564
Chromium carbonyl, as hydrogenation catalyst, 577
—— polymer-complexed hydrogenation catalysts, 577
Cirsium discolor, as source of hydrocarbons and oil, 657
Clays, efficiency of removal of phospholipids from degummed soybean oil, 856
Cleaners, hard surface, 93
—— US consumption, 1975 and 1976, 5
Clostridium botulinum, inhibition by aliphatic amines and amino amides, 854
Clothing, laundering characteristics, 198
Cocoa butter, comparison with phulwara butter, 621
—— replacement by confectionary fats, 845
Coconut fatty acids, in cosmetics, 438
Coconut industry of Philippines, 306A
Coconut oil based hard butters, 610A
Cod liver oil, as vitamin source, 238
Commodity oil markets, operation and function, 599A
—— symposium, 597A
Confectionary coatings, review, 845
Confectionary fats, application of interesterification, 796
Confectioners butters, properties, 610A
Conjugated acids, in butter and margarine, 257
Conjugated dienes, as measure of fat oxidation, 539
Connaraceae, palmitoleic acid in seed oil, 689
Continuous hydrogenation, laboratory-scale, 383
—— short contact time method, 892
Cooking oils, volatile products of trilinolein in simulated deep-fat frying, 897
Copper, dtmn in fats and oils, 695
—— in crude, refined and hydrogenated herring oil, 616
Copper-catalyzed, pressure hydrogenation of soybean oil, 402
Copra, storage and handling, 751
Corn lipids, reaction with ammonia, 526
Corn oil, computer dtmn of structures, 629
—— dewaxing, 396A
—— products of simulated deep-fat frying, 718
Cosmetics, historical use in oils and fats, 435
—— oily components, 444
—— use of fatty derivatives, 438
Cotton linters, uses, 394A
Cottonseed, glandless, flours from, 690
—— storage and handling, 751
Cottonseed flour, economic evaluation, 690
Cottonseed meal, oil and lipids of, 270
Cottonseed oil, esters of glycerol glucosides, 699
—— flavor score correlation with pentanal and hexanal contents, 252
—— flavor stability with antioxidants, 252
—— glyceryl glucoside esters, cost anal, 567
—— oxidation in aqueous and non-aqueous systems, 610
—— oxidation in presence of amino acids and albumin, 610
—— winterizing, 396A
Cottonseeds, association of fluorescence and aflatoxin, 591
Crambe seeds, inactivation of thioglucosidase, 679
Crepenynic acids, anal by silver resin chromatography, 561
Critical micelle conc of nonionics, 297
Cruciferae, fatty acid comp of oils from 26 species, 873
Cruciferae seeds, fatty acid content of 54 wild Mediterranean samples, 320
Crude oil, effect of storage on quality, 765
Curcbita foetidissima, oil and protein content, 523
Cyclic acids, in Finnish tall oil fatty acids, 407
Cyclic fatty acids, metabolism in rat, 734

Detergents and eutrophication, Swedish control regulations, 178
Detergents and soaps, in Arab nations, 24
—— inorganic components, 32
—— symposium, 5
Detergents for dishwashing appliances, 213
Detergents with fluorescent whitening agents, 114
Diacylglycerols, anal by high pressure liquid chromatography, 649
—— synthesis using pancreatic lipase, 422
Dibasic acids, production during simulated deep-fat frying, 718
2, 3 Dibromostearic acid, synthesis, 669
Dieldrin, behavior during refining of marine oils, 391
Dienes, coniugated, as measure of fat oxidation, 539
Dienoic acids, micro ozonization for anal, 486
Differential scanning calorimetry, examination of polymorphism of triglycerides, 310
Differential scanning calorimetry of saturated triglycerides, 601
Diglycerides, anal by high pressure liquid chromatography, 649
—— identification by TLC, 642
Dihydroxy acids, separation by silver resin chromatography, 564
Dimer acids, noncyclic, metabolic studies in rats, 632
—— noncyclic, synthesis by reaction of oleate and *tert*-butvl-peroxide, 632
Dimeric fatty acids, metabolic studies in rats, 632
Dimers, from deep fat frying, characterization, 375
—— production during simulated deep-fat frying, 718
Dimethyl dodecylamine oxide effect of pH on foam stability, 558
1, 3 Dipamito triglycerides, polvmorphism, 601
Diphenylbenzofuran, oxidation by lipoxygenase linoleic acid, 416
Dishwashing detergents, 213
—— based on nonionics, 93
Diterpenes, biodegradation, 113A
Dodecanol sulfate, viscosity in mixtures of homologues, 300
N-Dodecyl-2-amino propionic acid, effect of pH on foam stability, 558
Dodecylamine, inhibition of bacteria, 854
Double bonds, microozonization anal, 486
Draba genus, comp of oil, 873
Draba Montana, comp of oil, 873

E

Edible oils, bulk shipment, 815

—— degumming and refining, 765
—— deodorization, 783
—— dtmn of heavy metals, 695
—— storage of finished products, 815
Egg lipids, fractionation, 501
Egg yolk lipids, extraction and fractionation, 501
Egyptian bread, fortification with soy flour, 338A
Electron microscopy of detergents, 156
Emulsifiers, anal by high pressure liquid chromatography, 649
—— analytical techniques, 642
—— in margarine manufacture, 823
Emulsions, stability prediction by NMR, 248
Energy conservation, during solvent extraction, 784A
Energy conservation in oil refining, 772
Enzyme reactions, on solid carriers, 428
Enzymes, lipolytic, synthesis of acyl glycerols, 422
Enzymes in liquid detergents, 109
Epithio esters, by hydrogen sulfide addition to dienoic acids, 860
Epoxy acids, of *Cephalaria syriaca* oil, 412
Epoxy glycerides, liquid chromatography of trivernolin, 381
Erucic acid, amides as plasticizers, 459
—— in 54 samples of cruciferae seeds, 320
Erysimum genus, comp of oil, 873
Essential fatty acids, review, 774A
Ester amides, as vinyl plasticizers, 459
Esterification of neo acids, 342A
Esters, in cosmetics, 438
—— production during simulated deep-fat frying, 718
Ether carboxylates, as detergent builders, 58
Ether sulfates in surfactants, 66
4-Ethoxy-*trans*-2-octadecenoic acid, synthesis, 669
Ethoxylated alcohols, critical micelle conc, 297
Ethoxylated amines, in cosmetics, 438
Ethoxylated fatty alcohols, sulfation technology, 128
Ethoxylated monoglycerides, replacement of natural wheat lipids in bread, 635
Ethoxylated surface active agents, 93
Ethyl cellulose, as antiredeposition detergent additives, 122
Eupattonium altissimum L. as source of hydrocarbons and oil, 657
Euphophorbia dentata, as source of hydrocarbons and oil, 657
Euphorbia lagascae, trivernolin by high-performance liquid chromatography, 381
Euphorbia lathyrus, as source of hydrocarbons and oils, 657
Eutrophication, effect of detergents, 178
Extraction of oils, energy conservation, 784A
Extraction of oilseeds, using 1, 1, 2-trichloro-1, 2, 2-trifluoroethane, 587
Extraction by solvent, mechanism, 754
Extraction of soybeans, 754

F

Fabric softeners, review of cationic surface active agents, 118
Fabric washing, evaluation of detergents, 163
Falafil, soy flour fortification, 338A
FAO/WHO, report on role of fats in human nutrition, 196A
Fat emulsions, stability prediction by NMR, 248
Fats, ashing procedure for metal anal, 695
—— by lactose fermentation by *Candida curvata* and *Trichosporon cutaneum*, 683
—— chemical and physical methods to evaluate oxidation, 539
—— chemical reactions in frying, 718
—— chromatographic separation as measure of quality of used frying fats, 728
—— commercial, glyceride structure, 902

—— review of use of antioxidants, 809
—— simulated deep-fat frying, 718
—— solid content by pulsed nuclear magnetic resonance, 328
—— thermally oxidized, toxicity, 503
Fats and oils, availability expectations, 1980s, 25
—— hydrogenation, review, 792
—— use in cosmetics, 435, 438, 444
—— 1978 world situation, 605A
—— 1978 world supply estimates, 92A
Fats in human nutrition, FAO/WHO report, 196A
Fats in margarine, effect of physical properties, 823
Fatty acid, glycerol glucoside esters, cost anal, 567
Fatty acid acrylates and methacrylates, polymerization, 607
Fatty acid acyloxybenzamides and toluamides as plasticizers, 459
Fatty acid derivatives, antimicrobial activity, 395
Fatty acid derivatives in cosmetics, 438
Fatty acid dimers, metabolic studies in rats, 632
Fatty acid ester-amides, antimicrobial properties, 835
Fatty acid propylene glycol esters, identification by TLC, 642
Fatty acid sarcosinates, in cosmetics, 438
Fatty acid sucrose esters, solvent-free synthesis, 398
Fatty acids, antimicrobial activity of hexachlorocyclopentadiene adducts, 395
—— branched, synthesis of neo acids, 342A
—— by carbonylation of olefins using palladium catalysts, 496
—— condensation with ethylene diamine, 745
—— continuous hydrogenation, 892
—— cyclic, metabolism in rat, 734
—— esters of polyol glucosides, 699
—— in safflower seeds, effect of fungi, 465
—— microozonization for double bond anal, 486
—— mono and dihydroxy, by silver resin chromatography, 564
—— of *Cephalaria syriaca* oil, 412
—— of peanut oil, anal of free acids by gas chromatography, 225
—— oxidation catalyzed by amino acids and copper ions, 703, 708
—— oxidation by lipoxygenase, 416
—— production during simulated deep-fat frying, 718
—— saturated, ^{13}C nuclear magnetic resonance, 574
—— separation by silver resin chromatography, 561, 564
—— sulfonation process, 549
—— sulfonation technology, 128
—— thiocyanation, 583
—— transfer hydrogenation, 332
—— unsaturated, separation by silver resin chromatography, 561, 564
Fatty alcohol ethoxylates, sulfation technology, 128
Fatty alcohols, sulfation technology, 128
—— Ziegler synthesis, 93
Fatty amides, as plasticizers for polyvinyl chloride, 459
Fatty amines, inhibition of *Clostridium botulinum*, 854
Fibers, natural vs synthetic, 198
Filter aids, in edible oil processing, 781
Filtration in edible oil processing, 781
Finger millet, sterol lipids of, 647
Fish liver oil, history of U.S. use for vitamins, 238
Fish oils, development of industry in U.S., 238
—— fatty acid comp of oil from *Puntius sarana*, 881
—— in margarines and shortening, 238
—— in pharmaceutical products, 238
—— in treatment of heart disease, 238
—— pesticide behavior during refining, 391
—— uses, review, 238
Fishmeal, in animal feeds, 238
Flaking rolls, noise abatement during operation, 834A
Flavor of oils, correlation with headspace components by GC, 252
—— correlation with pentanal and hexanal contents, 252
—— sensory testing, 739
Flavor stability of soybean oil, effect of antioxidants, 345
Florasil, efficiency of removal of phospholipids from degummed soybean oil, 856
Fluorescence, as measure of fat oxidation, 539
Fluorescent whitening agents for detergents, review of product types, 114
Fluorescent whitening agents in detergents, 114
9(10)Formylmethylstearate, synthesis, 337
9(10)-Formylstearate, conversion to carboxystearate, 337
Foam, stability as function of pH for amine oxides, 558
Food emulsifiers, analytical techniques, 642
—— identification by TLC, 642
Foods, anal of emulsifiers, 642
Fragrances, in soaps and detergents, 41
Frying, deep fat, nonvolatile decomposition products of triolein, 375
Frying fats, biological effects of fat, 711
—— changes in sensory evaluation with use, 728
—— chemical reactions in deep-fat frying, 718
—— evaluation of quality of used fats, 728
—— gel permeation chromatography as measure of quality, 728
—— nonvolatile decomposition products, 718
—— nonvolatile products of simulated deep fat frying, 375
—— used, petroleum ether insoluble fatty acids as measure of quality, 728
—— used, recommended evaluation techniques in Germany, 728
—— volatile decomposition products, 718
—— volatile decomposition products of trilinolein, 897
Frying oils, nonvolatile products of simulated deep fat frying, 375
Fuller's earth, efficiency of removal of phospholipids from degummed soybean oil, 856
Fungi, effect on free fatty acids of safflower oil, 465
Furfural, in volatiles of aged mayonnaise, 482
2-(1-Pentenyl) Furan, relation to reversion flavor of soybean oil, 233
—— synthesis, 233

G

α-Galactosidase, for reduction of oligosaccharides of soy milk, 244
—— production from *Aspergillus auamori*, 244
Gas chromatography, evaluation of mayonnaise quality, 482
Gas chromatography of hexanal and pentanal in oils, correlation with flavor, 252
Giant ragweed, as source of hydrocarbons and oils, 657
Glandless cottonseed, economics of flour production, 690
Glucosinolates of crambe seed, 679
Glyceride composition, interpretation of lipolysis by pancreatic lipase, 903
Glycerides, computer dtmn of structures, 629
—— inapplicability of comp anal by lipolysis on fractionated fats, 903
—— lipase anal of fatty acids in 2-position, 902
—— of rapeseed varieties, comp, 870
Glyceryl monostearate, in cosmetics, 438
Glycerol 1,2-dipalmitate, dtmn by HPLC, 649
Glycerol 1, 3 dipalmitate, dtmn by HPLC, 649
Glycerol glucoside ester of cotton seed oil, cost anal, 567
Glycerol glucoside fatty acid esters, 699
Glycerol monopalmitate, dtmn by HPLC, 649
Glycerol monostearate, dtmn by HPLC, 649
Glycolipids, of several rapeseed varieties, 870
Gopher plant, as source of hydrocarbons, 657
Guayule as source of rubber, 657
Gums, soybean, factor for estimation, 521

H

Hand cream, detection of spermaceti, 837
Hard butters, manufactured products, 610A
—— non-lauric types, 610A
—— review, 845
Hardness, effect on soil removal in fabric laundering, 44
Hardness ions, contribution from fabric in laundry solutions, 44
Hardness of laundry washing solutions, 44
Heart disease, fish oils for treatment, 238
Heptadienal, in volatiles of aged mayonnaise, 482
Heptanoic acid, by carbonylation of olefins, 496
Herring oil, changes in metal content during refining and hydrogenation, 616
—— hydrogenated, monoethylenic acids, 290
—— partially hydrogenated, fatty acid comp, 290
—— pesticide behavior during refining, 391
—— production in California, 238
Hexachlorocyclopentadiene, antimicrobial activity of fatty acid adducts, 395
Hexadecanol sulfate, viscosity in mixtures of homologues, 300
***trans*-2-Hexadecenoic acid**, bromination with N-bromosuccinimide, 491
Hexadecylamine, inhibition of bacteria, 854
Hexanal, in volatiles of aged mayonnaise, 482
Hexanal in oils, correlation with flavor, 252
Hexene, carbonylation, 496
Histidine, reaction with methyl linoleate hydroperoxide, 352
Hydrocarbons, by irradiation of fatty acids, 849
—— from processing of whole plants, 657
—— intermediates of microbial oxidation, 430
—— production during simulated deep-fat frying, 718
Hydrocarbons of vegetable oils, 886
Hydrogen sulfide, addition to dienoic acids, 860
Hydrogenated acids, microozonization anal for double bonds, 486
Hydrogenation, by chromium carbonyl catalysts, 577
—— changes in pesticide levels, 391
—— *cis*-bond producing using chromium carbonyl catalysts, 577
—— continuous, laboratory-scale, 383
—— of herring oil, change in metal content, 616
—— selective of soybean oil using copper catalysts, 402

Hydrogenated sunflower oil, stability, 451
Hydrogenation, transfer using homogeneous catalysts, 332
Hydrogenation catalysts, chromium carbonyl complexed with polymers, 577
Hydrogenated cottonseed oil, simulated deep-fat frying, 718
Hydrogenation of fats and oils, review, 792
Hydrogenation of oils, models for *trans* isomer formation, 865
Hydrogenations, continuous, 892
Hydroperoxides, from linoleic acid using peanut lipoxygenase, 387
Hydroperoxy acids by lipoxygenase oxidation, 416
Hydroxy acids, by microbial oxidation of hydrocarbons, 430
—— production during simulated deep-fat frying, 718
—— separation by silver resin chromatography, 564
Hydroxy ethyl fatty amides, 459
Hydroxy-conjugated octadecadionoic acids, from lipoxygenase oxidation, 416
4-Hydroxy-*trans*-2-hexadecenoic acid, synthesis, 491
12-Hydroxy-*cis* and *trans*-9-octadecenoates, separation by silver resin chromatography, 564
2-Hydroxy-3-(2 alkyl amidoethylamino) propane-1 triethyl ammonium hydroxides, synthesis and properties, 745
Hydroxybutyl cellulose, as antiredeposition detergent additives, 122
Hydroxyethyl cellulose, as antiredeposition detergent additives, 122
2-Hydroxyethylamine acylamides, clouding of aqueous solutions, 293
Hydroxymethylstearate by reduction of methylformylstearate, 337
Hydroxypropyl cellulose, as antiredeposition detergent additives, 122
Hydroxysulfobetaines, in detergents, 98
Hypochlorites, in cleaning process, 104

I

Imidazoline fabric softeners, 118
Imidazolines, sulfated as lime soap dispersing agent, 741
—— synthesis of sulfated products, 741
Interesterification, application in margarine manufacture, 823
—— catalysts, 796
Interesterification of fats and oils, review, 796
Interesterification of triglycerides, directed, 796
—— reaction mechanism, 796
Irradiation of palmitic and oleic derivatives, radiolysis products, 849
Iron, dtmn in fats and oils, 695
—— removal by degumming of soybean oil, 280
Ironweed, as source of hydrocarbons and oil, 657
***trans* Isomers,** model for formation during hydrogenation, 865
***trans-cis* Isomers,** separation by silver resin chromatography, 561
Israel, soap and detergent industry, 21
Isopropenyl stearate, continuous process, 333A
